Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/820,281	Applicant(s) KONISHI ET AL.	
	Examiner Robert S. Tupper	Art Unit 2627	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Figures 10 and 11 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 2 is rejected under 35 U.S.C. 102(b) as being clearly anticipated by MASUDA et al (5,293,283).

Note especially figures 1, 2, 13, and 14. MASUDA et al shows a magnetic VCR recorder with tape pull-out members (25a,25b) that move from behind the tape in a mounted cassette to a tape pull-out completion position where the tape is wrapped onto the rotary head drum (14). The recorder includes guide members (27a, 27b) that each have a continuous groove (28a,28b) with no gap. The pull-out members each have a

boss (21a,21b) in their respective groove. The pull-out members each have a body portion (29a, 29b) that is moved on the top surface of the guide members.

4. The following is a statement of reasons for the indication of allowable subject matter:

The recitations in claims 1, 3, and 6 that the cylinder holding member and the guide member are "integrally formed" is read in light of the disclosure to require that the entirety of both members is constituted by a single continuous material.

The recitation in claim 7 that the cylinder holding member, the guide member, and the positioning member are "integrally formed" is read in light of the disclosure to require that the entirety of all three members is constituted by a single continuous material.

5. Claims 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert S. Tupper whose telephone number is 571-272-7581. The examiner can normally be reached on Mon - Fri, 6:30 AM - 4:00 PM (first Fri off).
